Chicken of the Sea.

Warm Up Properly – Start each run with dynamic stretching and a few minutes of easy jogging to prepare your muscles and reduce injury risk.

Cool Down & Stretch – After your workout, walk for a few minutes to bring your heart rate down, then do static stretches to aid recovery.

Listen to Your Body – Rest days are just as important as training days. If something feels off, take a break to prevent long-term issues.

Fuel Properly – Focus on a balanced diet with carbs, protein, and healthy fats like omega-3s to sustain energy levels, especially for longer distances.

Enjoy the Process – Training should be challenging but fun! Celebrate progress, listen to music or podcasts, and embrace the journey.
